CATHOLIC WOMEN'S CAMPAIGN

WORK OF DAUGHTERS OF THE FAITH AGAINST DIVORCE.

Pope Approves Scheme, Which Includes a Rooting Out of Evils Existing in Society and the Home-Miss Lummis Writes Manual Explaining Movement.

The "Manual of the Daughters of the Faith," the society for social reform, will be published this week by G. Putnam Sons. The author is Miss Eliza O'Brien Lummis, founder of the society.

There are about 200 pages in the book. A preface contains the brief of approbation recently received from Pope Pius X. and personal letters of indorsement from D. deonio, the apostolic delegate; Cardinal Gibbons, Archbishop Farley, Archbishop Riordan of San Francisco and Bishop Colton of Buffalo.

Since the Daughters' organization was founded there has been spirited division of opinion among both clergy and laity as to its purpose. Clerical criticism has been less outspoken since Miss Lummis's audience with the Pope, which resulted in the papal brief approving the scheme and suggesting that the women of the world cooperate with their New York sisters.

The manual explains the need of such a society among women of conspicuous social position, its object and aim, and defines the lines along which it proposes to work in the interest of healthier public sentiment and of high ideals in society and the

It reiterates the plea made recently by Archbishop Farley at a reception he gave April to the Daughters of the Faith at the episcopal residence, that the cooperation of non-Catholic women be sought and welcomed, especially in the society's efforts to check divorce. Some of the most prominent Catholic

women are said to be holding aloof from personal activity in the movement until the scope of the society is more thoroughly understood. The little manual will be circulated freely this summer at Newport, Narragansett, Lenox, Bar Harbor and other fashionable resorts, with the idea of paving the way to more intelligent understanding when the Daughters meet for formal organigation in the fall.

The field of work has been mapped out thoroughly. In Europe many women of title or unquestioned social influence say they are ready to cooperate with the New York society as soon as they are officially notified that the hour for action has come. Negotiations are already pending for the manual's translation into French

Catholic woman in the world.

"The society does not seek to displace
older organizations, but to act as a bond
between them; first, by the union of a few
courageous women whose lives are an

fashionable world. It is the hour of sorest

The advantages of a good establish-ment and social position may not be under-valued, but the American girl has been so thoroughly penetrated with the idea that the most important and seemingly only aim in life is to make an advantageous marriage that she has come to consider it not as the gate to success, but its goal, and looks for nothing beyond.

They include measures upon which the Daughters split in the first days of agitation, not a few declaring that in order to fulfil the rules literally they would be forced to ignore socially, not only closest friends, but in not a few not only closest friends, out in not a few instances kindred, so largely is divorce, through mixed marriages, making inroads into Catholic families. The pigeons which make their home in the belfry of St. Patrick's Cathedral are looking fat and sleek these days. The cab starter of a nearby club feeds them regularly twice a clay, and a strange way he has of calling them to feed.

He whistles much as one does for a dog, and as soon as they hear him they circle down for their meal.

The Spanish restaurants have decreased in numbers until it is difficult for an admirer of that highly seasoned cooking to find one that is really representative. There are still on several bills of fare the names of what seem like Spanish dishes, but they turn out to be ordinary New York food served under a Spanish name. Liver and bacon sounds and looks in the Spanish language like something quite exotic in the culinary line. There are now only two or three of these restaurants that make any attempt to supply a characteristic Spanish cuisine.

Just before her completion, however, President Garfield was shot. The captain who commands her is very proud of the fact that he commands the President's yacht, as he calls her.

TRINITY TO BUILD ANEW ON GOVERNORS ISLAND.

Congregation Has Outgrown the Present St. Cornellus's, Erected in 1846-New Building Will Be Adorned With Mill-

A visit of the Rev. Morgan Dix, rector of Trinity, to Governors Island yesterday made known the fact that this military post will soon have the finest military chapel in this country. It will be erected by Trinity Church Corporation on a site facing Buttermilk Channel, allotted by the Government. The cornerstone of the chapel will be laid in August.

There has been a Protestant Episcopal chapel on the island since 1846 when Trinity The housewife of the Italian quarter Church Corporation put up a wooden structure on the northeast end of the parade grounds. Five years before the erection of this chapel, which is the only one on the island and has been in use all these years. Trinity appointed a chaplain for the island. He was paid the salary of a Major in the Regular army, but was not an army chaplain, although it has always been the custom of the officers and soldiers on the island to salute him as if he were an army officer. The Government has always supplied this chaplain with quarters.

The present chapel, which is officially known as St. Cornelius's, has been inadesays the manual, "is to unite Catholic the Grand Central Station for Boston at quate for years. Its capacity is only about 150, and there are about 800 soldiers, includ-The ing military prisoners, on the island. The majority attend the chapel and it was necessary to hold services several times each Sun-

day. The Rey. Edward Banks Smith is the present chaplain, having been appointed last October after the retirement of the Rev. Edward H. C. Goodwin, who held the post for thirty-three years. Mr. Banks soon found that the chapel was too small, and in December he put the matter before Dr.

Dix.

Dr. Dix took up the subject with the standing committee of Trinity Church Corporation, and they decided on a new chapel. Secretary Taft allotted the site and the corporation appropriated the money. Dr. Dix would not tell yesterday how much the new building is to cost, but it will be \$50,000 at least.

Next Thursday evening an entertainment will be given at the navy yard under directions of the commandant and officers, in which the principal participants will be plans for the chapel, which will be of granite and social position may not be underable most important and seemingly only in in life is to make an advantageous harriage that she has come to consider it of safe for nothing beyond.

ROSLYN, L. I., June 17.-Four hundred school children, including forty-five colored children, were entertained this afternoon by Mrs. Clarence H. Mackay at Harbor Hill, her country place here. The members of the white Republican club marched to the house headed by their president, Samuel H. Andrews. Each man wore a handsome silk badge with "Roslyn Republican Club" in gold letters on it. Mr. Mackay was president of the club during the Roosevelt campaign. He de-clined a reelection to that office, but is charman of the club's board of managers.
